**Subject:** ALEX/OPA: Sinclair Interview Prep Questions re: Sulfoxaflor

Good morning,

# **Ex. 5 Deliberative Process (DP)**

Q1. Did the states make an emergency request? Can someone explain why they needed it?

## **Ex. 5 Deliberative Process (DP)**

Q2. The pesticide/chemical was banned under Obama administration, what has changed?

## **Ex. 5 Deliberative Process (DP)**

Q3. Will the use of this pesticide/chemical be monitored for impact on the environment and bees? How will that be monitored? How often?

## **Ex. 5 Deliberative Process (DP)**

# Ex. 5 Deliberative Process (DP)

Q4. I'm reading that the chemical affects bee reproduction?

# Ex. 5 Deliberative Process (DP)

\*More information:

# Ex. 5 Deliberative Process (DP)

Q5. Did the current administration stop collecting data on bees/honeybees? Why?

# Ex. 5 Deliberative Process (DP)

Cheers, R.

Sounds good. I don't know when the story would happen, I'm just trying to gather information at this point.

Good morning and thanks for reaching out,

Why don't we touch base early next week to see where things stand? When do you hope to file?

**Subject:** possible story

Hello!

My name is Angelica Alvarez, I'm a correspondent for Sinclair Broadcast Group here in D.C.

Working on a potential story for next week.

Wanted to know more about the EPA's decision to allow states to use sulfoxaflo? (article linked below)

[thehill.com/policy/energy-environment/448970-epa-will-allow-use-of-pesticide-harmful-to-bees](https://thehill.com/policy/energy-environment/448970-epa-will-allow-use-of-pesticide-harmful-to-bees)

What are the 11 states that requested to use it?

I'm just starting to look into this so forgive me for overlooking things that are out there, just wanted to reach out to you guys earlier rather than later.

Did the states make an emergency request?

Can someone explain why they needed it?

The pesticide/chemical was banned under Obama administration, what has changed?

Will the use of this pesticide/chemical be monitored for impact on the environment and bees?

How will that be monitored?

How often?

I'm reading that the chemical affects bee reproduction?

Did the current administration stop collecting data on bees/honeybees? Why?

If we do a story on this next week, would someone from the EPA be available to talk on camera?

As always any and all info is appreciated! Thank you!

Angelica Alvarez
